

ROV Basket Panels & Stands

Ubas Multifunctional Subsea ROV Basket System

Doc. No.: IN-UDE-180-DS-012, Rev. 02

The **Multifunctional Ubas ROV Basket System** includes a number of different types of ROV baskets. These baskets are available in their standard configuration, or they can be re-configured to include bolt-on ROV panels and/ or stands that are arranged to suit various subsea tasks and operations.

General – Panels & Stands

- Material: Stainless and /or GRP grating.
- Includes bolt-on ROV grabbers and panel marking.
- Includes all fasteners, brackets and similar required for mounting cobra head / MQC parking receptacles including lock/unlock features, valves, instruments, valve operators, position indicators, etc.
- The MQC parking receptacles are interchangeable between the panels and the stands.
- If needed, panel and / or stands will be provided with new GRP panel plates or stand mounting plates that will suit possible new interfaces and arrangements.
- As applicable, the ROV basket is fitted with an Ubag that act as a counter weight to balance any basket tilt the weight of a panel or stand may result in.

Cobra Head / MQC Parking Panels

- Vertical mounted bolt-on panel arrangement that is mounted onto the basket prior to delivery (Ubas ROV basket types A, B or G).
- Or, the standard basket hatch (Ubas A & B) is removed, and replaced with a horizontal mounted MQC parking panel (e.g. for installation / retrieval of hydraulic filter package, blind /test MQC or a flushing type MQC, etc.).
- The panel is fitted with supplier specific or generic type MQC parking receptacles.

Cobra Head / MQC Parking Stands

- Bolt-on arrangement for the Ubas G ROV basket. The basket sides are fitted with one to four off bolt-on Parking Stand Adapter assemblies in which the MQC parking stands are landed / positioned.
- The MQC parking stand is locked to the adapter assembly with two off M24 locking pins that are chained to the stands legs. The stands can be quickly disconnected, and laid down on the basket for transportation, or basket stacking purposes.
- The MQC parking stand is fitted with supplier specific or generic type MQC parking receptacles.

ROV Operated Hydraulic Control Panel

- Vertical mounted as the vertical MQC panels (Ubas A, B or G).
- Horizontally mounted as the horizontal MQC panels (Ubas A & B). For Ubas G a separate horizontal panel will be mounted in one of the basket short ends.
- Includes instrumentation, ROV operated valves, stab receptacles, stab parking and hydraulic hoses as required by the function of the panel.
- Panel layout and arrangement will be advised for each specific case / application.

ROV Operated Valve Panel

- Horizontally mounted as the horizontal MQC panel (Ubas A & B). For Ubas G a separate horizontal panel will be mounted where applicable / suitable.
- Includes instrumentation, ROV operated valves handles, stab receptacles, stab parking and hydraulic hoses as required by the function of the panel (e.g. for subsea test manifold operation).
